"Thermo-Tack"

Adhesive Sublimation Paper For Apparel Applications

Tackified Coating Chemistry provides...

- A unique print medium engineered solely for apparel sublimation transfer applications.
- A tacky super-uniform coated print surface activates during the transfer process
- High fluid capacity. Thermo-Tack paper maintains sharp definition even at heaviest ink-loads.
- Absolute color consistency.
- 100gsm base sheet for ease of handling right through the calendar machine.
- Special length rolls are available upon request with quick turn-around.

Compatible with...

- Most brands of digital sublimation inks
- Roland, Epson, Mutoh and Mimaki printers
- Most polyester fabrics

Best output is attained with properly profiled integration.

Assistance to achieve optimum output is available upon request!
