

HIGH RELEASE WATER BASED DIGITAL SUBLIMATION PAPER

# TexPrintXP<sup>TM</sup>

version **HR**

## DIGITAL SUBLIMATION PAPER

### New & Improved “Hybrid” formulation

Beaver Paper introduced its “Quick-Dry” dye-sublimation paper to the industry almost five years ago. Today, our latest iteration of that original “Quick-Dry” product, TexPrint-XP<sup>TM</sup> *hr* is the #1 selling dye-sub paper in North America!

What’s more, TexPrintXP<sup>TM</sup> *hr* is still the only “hybrid” paper that can be used successfully for both hard and soft substrates.

TexPrintXP<sup>TM</sup> *hr* is a simpler way of getting things done. One product “fits all” is the perfect way for distributors and end-users alike. There is no need to use different applications.

TexPrintXP<sup>TM</sup> *hr* is available through authorized distributors worldwide!

*Tested and proven with all major brands of digital Sublimation Inks, Including:*

- Sawgrass IQ
- Sublim
- ArTanium
- Rotech
- BASF
- Manoukian
- J-Teck
- Kiwa
- CIBA
- Hilord
- Sensient

TexPrintXP<sup>TM</sup> *hr* is fully compatible with Piezo print head technology on all popular large-format dye-sub printers, including:

- Epson
- Roland
- Mimaki
- Mutoh

AVAILABLE IN:

- All sheet sizes including A4 - A4+ - A3 - A3+ - A2
